Personal ID 63

Representation ID 328

Regarding :- Hearing 5, Proposals Map, Item 17  
(as shown in Matters and Issues version 6)  
“Is the Woking town centre boundary shown accurately upon the  
proposals map and justified by the evidence base?”

Part of Core Strategy unsound : Proposals map

Soundness test : Coherence, consistency and effectiveness

Why does it fail : Proposed boundary is not justified by the evidence

How make sound : Change the town centre boundary on the Proposals Map

Precise change being sought : Redrawing of the town centre boundary to exclude  
Oriental Road numbers 4 to 8 and 13 to 69, Oriental Close, Heathside Crescent (north  
east section), and White Rose Lane numbers 5 to 9.

This submission is the addition of some photographs to support my original  
representation, not the submission of extra written evidence. Please see the following  
photographs taken of Oriental Road and Oriental Close. These houses are some of  
those listed above, and clearly show the established residential nature of this area.
