Introduction

The further modifications have been prepared by Woking Borough Council in response to the Inspector's questions sent to the Council on 15 March 2016. The Inspector's questions (WBC/DM/I001) and the Council's response (WBC/DM/015) are on the Council's website (www.woking.gov.uk). The schedule of suggested modifications is also on the Council's website. Eventually, the further modifications will be added to the proposed modifications submitted to the Inspector as part of the Submission Documents to provide a central reference document for all proposed modifications. It is emphasised that the schedule of proposed modifications could change during the Examination, and it is up to each interested party to contact the Programme Officer or check the Council's website for up-to-date information.

However, there will be occasions where other factors may dictate that a record is an acceptable alternative to the destruction of a heritage asset. In exceptional circumstances where the Council has to make a decision for the total or partial destruction of a heritage asset because a comprehensive record exists, careful consideration

			will be given to the significant public benefits of the asset before that decision is made. Such a record should be in proportion to the significance of the asset itself and be carried out by suitably qualified people with provision for the publication of the results of the work to a wider audience. It should be noted that as of October 2013, there is no longer the requirement to submit a separate application for 'Conservation Area consent' for the demolition of an unlisted building in a Conservation Area – only one application for planning permission is required'.
